

Appendix C: Colahan Roster, 1952-53-54

The *U.S.S. Colahan and Asia* cruise book, published in mid-1952, listed 317 officers and enlisted men (Appendix B). A huge majority of these sailors rode the *Colahan* as she performed bombardment and screening chores off Korea's east coast in the winter of 1951-52, but a few who were named in the cruise book roster reported aboard in the spring or early summer of 1952, after the destroyer had returned to her San Diego home port. They were too late for the first war tour but just in time for the book's roster and "after the cruise" photographs. Many others, missing both the tour and the roster, showed up in the second half of 1952, and this appendix completes the list for that year. Those who reported in 1953 and 1954 are also listed here, although many names are missing.

This addendum to the cruise book roster was prepared by Joe Galligan of Glendale, Arizona, a *Colahan* gunner's mate who, a few years ago, reached an age when many men begin taking backward looks. He set for himself what some would call an impossible task. With the help of his wife Peg, he compiled a computer spreadsheet aimed at listing every sailor who served aboard the *Colahan* from August 1943, when she was commissioned, until early 1966 when she was deactivated and left crewless to await her death sentence. In 1997 Galligan's spreadsheet contained 1,444 names, very impressive but no more than half complete. The 1952-54 portion of his database yielded the following names, with some additions made by the author.
